GENERAL KNOWLEDGE

Know Your Waste

We must throw different wastes into separate dustbins.
Draw lines to match the things to the correct bins.

The image shows a matching exercise for waste disposal. At the top, a sun icon is next to the title "Know Your Waste". Below the title, the instructions read: "We must throw different wastes into separate dustbins. Draw lines to match the things to the correct bins." The central part of the page displays ten different types of waste items, each in a circular frame with a dot at the bottom. These items are: an apple core, a banana peel, a toy tractor, a stack of newspapers, an egg carton, a sandwich, plastic bags, a cardboard box, and plastic bottles. Lines are drawn from each item to one of three bins at the bottom. The bins are: a green bin labeled "FOOD" with a recycling symbol, a red bin labeled "PLASTIC" with a recycling symbol, and a blue bin labeled "PAPER" with a recycling symbol. A cartoon character in a green uniform is shown next to the bins. At the bottom, a partial sentence reads: "How you can reuse cartons, plastic bottles and newspapers." On the right side of the page, there is a vertical label "ENVIRONMENT" and a page number "259" next to "GENERAL KNOWLEDGE".
