

Section A (Reading)

a. Read the passage carefully:

People are consumers. We spend large parts of our days finding, buying, cooking, and eating our food. Have you ever thought that it might be nice to be able to make your own food like plants do? Plants are producers and prepare their own food through a process called photosynthesis, using sunlight, water and carbon dioxide.

Plants have special structures called chloroplasts that animals do not have. Chloroplasts are arranged in stacks which are filled with chlorophyll is what gives plants their green colour. They absorb the light from the sun. Chloroplasts can absorb every colour except green. Light from the sun activated the chlorophyll. This sets off a series of chemical reactions which prepare the food for the plant, and end in the release of oxygen that we breathe

Answer the questions that follows:

(5)

- Why are plants called producers?
- What plants have but animals don't?
- What gives plant their green colour?
- What happens when chlorophyll is activated?
- Which word from the paragraph (para 2) means 'neatly arranged'.

Section – B (Writing and Grammar)

- You are Ruhi/Rahul, the cultural secretary of your school. Write a notice informing the students about the participation in Independence Day celebration. Write the notice in about 50 words. (4)
- Fill in the blanks to make compound nouns: (1)
 - Butter _____ , ii) _____ dream
- Underline the common nouns and circle the proper nouns in the given sentences: (2)
 - Mount Everest is the highest mountain in the world.
 - Anup is my best friend.
- Identify the countable and uncountable nouns in the given sentences: (2)
 - I'm looking for the information on dinosaurs.
 - She bought two candlestands made of silver.
- Arrange the following words to make a meaningful sentence (1)

drove/ to/he/ the station/us

Section-C (Literature)

- Reference to the context: (4)

"Why are you on the grounds at this hour?"

 - Name the lesson and the author.
 - Who asked this question and to whom?
 - When was this question asked?
 - What happened after this?
- Answer the questions in 20 to 30 words: (6)
 - How did the boy and the man shoot at the birds?
 - Why did Alice sit down and cry?
