READING

A) Read the passage carefully and answer the questions:

A volcano is a burning mountain with a great hole running deep into the earth. Out of it comes smoke, gases and stones. The mouth of the opening is called the crater of the volcano.

Volcanoes are not always burning. Sometimes a volcano will remain quiet for centuries. Then it will suddenly become active. This is called volcanic eruption.

When the eruption takes place, great clouds of ashes, dust, gas and steam rise from the crater. After sometime, white hot molten rock, called lava begins to flow down the mountain sides. This may go on for days or weeks. Then the volcano will 'go to sleep' again for many years. Most volcanoes are found near the seas.

1. What is a volcano?
2. What happens when volcanic eruption takes place?
3. Most volcanoes are found near.....
4. Give the opposite of 'noisy' from the passage.
5. Give one word for 'a period of 100 years' from the passage.
