## Sub: English Assignment-4

### Reading

#### 1. Read the following passage carefully:-

Penicillin is one of the most useful drugs invented by man. With its help we can heal wounds caused by bacteria which cannot otherwise be healed. To begin with, very few people knew of this wonderful discovery and its uses. First scientists and then ministers of governments were interested in it. Since penicillin could save the wounded soldiers, it could be helpful in war. And so they all decided to encourage the process of its manufacture. Vast factories were set up for preparing it. Lives of hundreds of thousands of soldiers were saved with its help.

Penicillin, when introduced into the stream of the human blood, acts as an aid to those parts which are always fighting the deadly germs. It has no power over every kind of bacteria; but certain kinds are destroyed by penicillin in the great majority of cases.

#### Answer the following questions:-

- What are the chief uses of Penicillin?
- How does penicillin act in the human body?
- Can penicillin destroy all kinds of bacteria?
- In what way could penicillin be helpful in war?
- Give the opposite of :-Encourage; destroyed.
